

# YOU MAKE AN **IMPACT!**

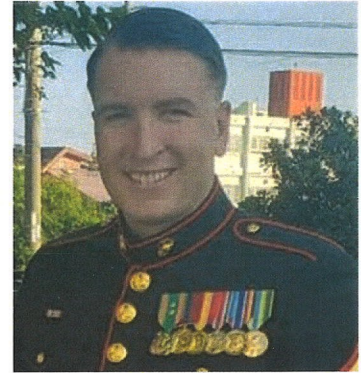

## **Hunter Moss**

**Rick and Josh Kemp Memorial Scholarship**

**HOMETOWN:** Waukesha, WI

**CLASS:** 2024

**MAJOR:** Mechanical Engineering

**ABOUT ME:** I chose MSOE because it was touted as one of the best engineering schools in the country. Since my family and extended family lived in Wisconsin, it was an easy decision between my wife and I when I left the Marine Corps, to be close to family while working towards a Mechanical Engineering degree. I chose ME because my work in the Marine Corps was enjoyable and I wanted to do more to contribute to industry as an engineer.

**MY MSOE EXPERIENCE:** Having earned an AS in Technical Management prior to attending MSOE, the faculty made the transfer process incredibly simple and made sure that I had every piece of information I needed to smoothly transition. Additionally, the small class sizes make the learning environment feel more personal and the instructors take pride in ensuring the success of their students not just in their academics, but life in general.

**LOOKING FORWARD:** Having completed my first year, I look forward to diving into engineering specific topics in more detail. Transfer credits from my AS degree were spread out across the 4-year ME degree path so most of my time last year was spent completing the "general education" portion of the program. This year and next, I'm looking forward to learning more about the world of engineering and everything it has to offer.

**THANK YOU:** I want to sincerely thank you for helping me achieve my goal of becoming an engineer from one of the best schools in the country. Your generosity has helped me focus on my studies by not having to worry as much about the financial aspect of earning a degree.
